

Report on Greenery & Environment of J. K. Collage , Purulia W.B. , during 2015-2016 by Sri Samir Majumdar W.B.F.S. , A.D.F.O. Kangsaboti South Division Purulia

Introduction ; Jagannath K ishore Collage one of the best collage in Purulia District . The collage `is situated in a calm and quite place of Puurlia town . Previously this collage is under Burdwan University . Now it is under Sidhu Kanu Birsha University . Total area of the collage campus including hostel , blank area etc. all is 23.45 acre . Out of this is covered with collage building , hostel, blank area etc. Around 30% of the total area is for gardening , orchard & tree planting .

Management ; To make the collage green responsibility is fixed on professors & students including NSS & NCC students . They are doing this job with full of responsibility and sincerity . The Principal of this collage is a man of energy . All the time he is trying to make the collage campus green and pollution free .

Activities ; Throughout the year NSS and NCC volunteers are doing various activities to nurse and maintain the seedling , sapling of the collage with the help of experts . Every year tree planting program is taken by the managing authority of the collage . In this regard the activities of the present Principal is highly appreciated .

Finding ; Purulia district is renowned with dry area due to hard and rocky soil . But due to a large numbers of trees in the collage campus , sheds are found all most all over the area . It is the area where birds are singing in summer . It is one of the best collage where there are various types of trees in the collage campus . Collage building , office , garden and paths are clean and free of pollution .

Remarks ; Some lands around Boy's hostel , Girl's hostel and play ground is lying blank still now . Collage authority should make a plan and impose responsibility to the NSS and NCC volunteers to plant , protect and maintain the seedling over the blank area . Needs to plant Amloki , Haritoki , Bahara , Piasal , Kend , Sal , Kadam , Bakul and indigenous spp. seedling . Every year during the month July awareness camp/ class / seminar/ is necessary where all the students teachers and non-teaching staffs will participates to make the environment green .

Conclution ; Collage location is almost neat and clean . Collage authority should lend their help to make the collage campus green and pollution free . About 30% of the total area of the collage campus is covered with green . It is good sign of Greenery around the collage . Some shrubs , herbs etc of medicinal value to be planted in a well protected and maintained area .
