The Philosophy: This is an informal endeavor from my end to reach my students beyond studies. The subject itself facilitated this effort to understand them in a better way, as field work is an integral part of this subject. Mingling with them outside class rooms and college premises helped me a lot. I tried to counsel them in my capacity on the basis of aforesaid observation which is reflection of my perception about each individual. I enjoyed a niche in their life, which is neither of blood relation nor of any legal relation.
