To

Dr. Anirban Panda  
J. K. College, Purulia  
West Bengal, India

Dear Dr. Panda,

I am writing to invite you for a collaborative discussion at BITS-Pilani, Hyderabad Campus in the middle week of December. It would be great to discuss about your project on penetration of GFP based drug molecules across membranes. This type of problem can be modeled in an atomistic or course-grained scale and molecular dynamics simulations may follow the dynamics. Looking forward to interact with you.

Best wishes,

Durba Roy
