ACTION TAKEN REPORT ON FEEDBACKS

The Feedback reports were discussed in the IQAC, and then was taken up by the Principal for necessary action. Feedbacks were received from the students, teachers, Employer, and Alumni. Based on 15 questions related to the design and structure of the syllabus, college infrastructure, academic atmosphere and facilities, departmental efficiency and accessibility, co-curricular opportunities, methodology for timely grievance redressal, mentoring learners, and student progression related matters we received 376 responses from students of different departments. Analyzing on the five point scale, we find that on most of the questions the students expressed their overall satisfaction terming the facilities as good or very good or excellent. Around 20% of the students, however, were not happy on various issues, especially on the computer facilities in the college.

The feedbacks received from the employer, teachers as well as alumni were also placed and discussed. The respondents have mixed opinions about the syllabus and its transaction. Overall there is a feeling that the syllabus and its transaction must take into account the socio-economic background of the learners and the infrastructural facilities provided by the respective colleges.

The Principal placed the report in the all-staff meeting to make everyone aware of the positives and the gray areas. It was resolved that teaching-learning should be made more student-centric and activity based. More computers should be purchased at an early date to meet the demands of the learners. Further resolved that the members of the Board of Studies should be requested to place the synopsis of the feedbacks in the meeting of the BOS for necessary modifications in the syllabus wherever possible.
