

BEST PRACTICE –I

Promoting value-based education: In our country, there has always been a challenge to maintain ethical integrity in every walk of life. In addressing the issue, our institution contemplated to lay special emphasis on activities highlighting value-based education, fusion of traditional and modern knowledge, and newer areas of socio-economic experimentation. In various lectures addressed by eminent speakers, the focus has sometimes been on the philosophical perception of the Universe, sometimes on the importance of eco-friendly modes of production, and on humane and ethical social ethos. National Integration Camp with NSS volunteers from 18 different States, Students' Week celebration, Seminars and Workshops with erudite monks from Ramkrishna Mission and the like, everyday online meditation, spontaneous donations given to the needy students, alumni and the local people are some of our initiatives during the last year.

Seminar on Value Education (Date: 20.06.2022)
